

1. K-LOVE serves me as a Christian in Tucson. It helps my faith and uplifts me as well as informs me. The community would be negatively influenced should K-LOVE be removed from the air. It is an inspirational and positive influence on the community. It is in the public interest because it promotes Christian values, not only to established Christians but to the community at large. In a world seemingly devoted to declining morals, K-LOVE is uplifting and is dedicated to the growth of the human spirit in positive terms.
